EDUCATION

Jawaharlal Nehru University <i>Bachelor of Technology in Electronics and Communication Engineering</i>	New Delhi, Delhi 2025-2029
H/S Khairwa Bishnupur <i>Intermediate in Science</i>	Sitamarhi, Bihar 2022-2024

EXPERIENCE

Self-Learning and Project Development <i>Artificial Intelligence and Programming</i>	2025 – Present Remote
• Worked on personal projects related to data analysis and algorithm implementation using Python and C++ • Explored Machine Learning concepts and libraries such as Pandas, NumPy, Matplotlib, and Scikit-learn • Practiced Data Structures and Algorithms through coding platforms like LeetCode	

PROJECTS

Analysis of Rainfall Across India <i>Python, Pandas, NumPy, Matplotlib</i>	2025
• Analyzed rainfall datasets from different regions of India to identify seasonal and regional trends • Performed data cleaning and visualization using Python libraries for comparative analysis • Generated graphical insights to study rainfall distribution patterns across states • Improved understanding of real-world climate data through statistical analysis techniques	
Maze Generator and Solver <i>C++, DFS, BFS, Data Structures</i>	2025
• Developed a maze generation and solving system using graph traversal algorithms • Implemented DFS and BFS algorithms for pathfinding and shortest path detection • Designed logic for efficient maze creation and navigation visualization • Strengthened problem-solving and algorithmic thinking through practical implementation	

TECHNICAL SKILLS

Languages: C, Python, HTML, CSS
Core Concepts: Data Structures and Algorithms, Basic Machine Learning
Developer Tools: VS Code, Jupyter Lab, Git
Libraries: Pandas, NumPy, Matplotlib, Scikit-learn
Areas of Interest: Artificial Intelligence, Machine Learning, Data Analysis, Drones and UAV Systems
